*Real-time monitor baby
with Smart Baby socks
to track your baby's
location and wellness
status*

iBabyCare

To empowering parents with
the right information at the
right time about baby's:

- | | |
|--|---|
| <input checked="" type="checkbox"/> Heart Rate | <input checked="" type="checkbox"/> Humidity |
| <input checked="" type="checkbox"/> Oxygen | <input checked="" type="checkbox"/> Sound level |
| <input checked="" type="checkbox"/> Lux level | <input checked="" type="checkbox"/> Temperature |
| <input checked="" type="checkbox"/> Location | <input checked="" type="checkbox"/> Air Quality |

PARENTS WORRIES!

How is my baby, is the baby okay?

Baby socks is your smart solution!

- ✧ Real-time check your baby's status. Anytime and anywhere to using our smart socks.
- ✧ Devices to monitor your baby and it will give u a sense of security and put your mind at ease.

SMART BABY SOCKS

The socks are with a sensor to detect and watch over your baby while they sleep..The information sends to the base station via Bluetooth or Wi-Fi. Our design is to notify you with lights and sounds if something appears to be wrong. Parents can see baby's location and real-time status with the smartphone.
