

专门为高血压管理打造的一款智能物联网血压计，可实现数据自动上传归档，并可配合APP及pc管理系统，将高血压管理服务内容如：定时测量、服药禁忌等服务内容，通过物联推送至血智能物联网血压计，实现远程慢病管理服务，真正的解决高血压管理痛点，助力高血压管理！

GPRS远程关爱

健康数据直接上传归档，实现医疗卫生机构数据实时监控

The diagram illustrates the workflow of the remote monitoring system:

- Step 1:** A caregiver (woman) is shown editing settings on a smartphone. A speech bubble says: "老爸最近总是忘服药，给他设置个服药提醒" (Dad has been forgetting to take his medicine lately, let's set a reminder for him). Below the image, it says: "远程编辑设置，提醒爸妈测量、服药、风险预警" (Remote editing settings, reminding parents to measure, take medicine, and risk warning).
- Step 2:** The smartphone screen displays a clock at 13:30 and a reminder: "爸，早上别忘了服药！" (Dad, don't forget to take your medicine in the morning!).
- Step 3:** A cloud icon with the text "一份关爱 一份健康" (A share of care, a share of health) connects the phone to the device.
- Step 4:** The "Eachine 800" device is shown. A speech bubble from the elderly couple says: "爸，等下别忘了服药！" (Dad, don't forget to take your medicine later!).
- Step 5:** The elderly couple is shown using the device. Text below says: "自动测量，健康数据实时上传，让儿女放心" (Automatic measurement, health data uploaded in real-time, so children can be at ease).

连续血压报告

早期高血压病的诊断；更好地预防心脑血管并发症的发生

血压报告 2018-07-09

姓 名:	王 强	性 别:	男	年 龄:	56
病 号:	0004	门 诊 号:	436512016749****	医 疗 号:	436512016749****
出 院 号:	00000	身 高:	160cm	体重(kg):	65.00
检测时间:	201807-09 11:33:15	测量次数:	15.0 (37.33%)		

24小时血压平均值: 108.5/63.3mmHg 正常参考值: 120/75mmHg
 昼夜血压均值: 108.5/63.3mmHg 正常参考值: 140/90mmHg
 夜间血压均值: 63.0/36.0mmHg 正常参考值: 120/80mmHg
 最近测量值: 136mmHg 0.2018-07-09 13:45
 最近收缩压: 76 mmHg 0.2018-07-09 13:27
 最近舒张压: 46 mmHg 0.2018-07-09 13:45

收缩压趋势分析		舒张压趋势分析		脉压差趋势分析	
收缩压 <130mmHg	0.00%	舒张压 <120mmHg	0.00%	脉压差 <30mmHg	0.00%
收缩压 >145 mmHg	0.00%	舒张压 >125 mmHg	0.00%	脉压差 >30mmHg	0.00%

可充电锂电池

可循环使用，省钱又环保

- 离子电池
充足电力
强大能量
- 放电稳定
持久耐用
安全稳定
- 高效智能
创新技术
高效持久
- 智能保护
电压保护
智能控制

This is a promotional graphic for rechargeable lithium batteries. It features a light gray background with a white rectangular area in the center. Inside this area, the title '可充电锂电池' (Rechargeable Lithium Battery) is written in a large, bold, black font. Below the title, the slogan '可循环使用，省钱又环保' (Reusable, saving money and being environmentally friendly) is displayed in a smaller black font. At the bottom of the white area, there are four rounded rectangular boxes, each with a dashed border. Each box contains three lines of text: a category name, a benefit, and a feature. The categories are '离子电池' (Lithium Ion Battery), '放电稳定' (Stable Discharge), '高效智能' (Highly Efficient and Intelligent), and '智能保护' (Intelligent Protection). The benefits are '充足电力' (Sufficient Power) and '强大能量' (Powerful Energy). The features are '持久耐用' (Durable), '安全稳定' (Safe and Stable), '创新技术' (Innovative Technology), and '高效持久' (Highly Efficient and Durable). The last box lists '电压保护' (Voltage Protection) and '智能控制' (Intelligent Control). The overall design is clean and modern, emphasizing the benefits of using rechargeable batteries.

更多人性化设计，满足你所有的想象

Diagram illustrating the features of the Eachbon smart blood pressure monitor:

- 全程语音播报 (Full-process voice broadcast)
- 数据自动上传 (Automatic data upload)
- 可充电锂电池 (Rechargeable lithium battery)
- 连续血压监测 (Continuous blood pressure monitoring)
- 智能提醒 (Smart reminder)

个性化定制：产品功能可根据需要进一步拓展、定制

支持多种数据传输模式
数据传输支持 GPRS 蓝牙

 中国移动
China Mobile

 中国电信
CHINA TELECOM

 中国联通

数据传制支持 GPRS 蓝牙
